Valentina Nzube Molokwu

Product Designer | UI/UX & Mobile App Design
nzubemolokwu5@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Product Designer with 2+ years of UX/product design experience and a Software Engineering background. Designs web and mobile products from user flows and wireframes through high-fidelity UI, interactive prototypes and usability testing. Independently designed and implemented an actively used inventory, sales and expense management system. Combines Figma, interaction design and AI-assisted prototyping with experience leading design in a five-person academic project team and presenting and defending project decisions.

CORE SKILLS

Design: UI/UX Design, Mobile App Design, Interaction Design, User Flows, Information Architecture, Wireframing, High-Fidelity UI, Prototyping, Design Systems, Usability Testing, Accessibility, HCI
Tools & Technologies: Figma, Adobe Photoshop, Claude, Claude Code, HTML, CSS, JavaScript
Collaboration & Delivery: Design-to-Developer Handoff, Team Collaboration, Project Presentations, AI-Assisted Prototyping, Design-to-Code Workflows

WORK EXPERIENCE

Product Designer | Ifythel Lights and Accessories | Jun 2023 - Oct 2025

- Owned the design and implementation of a business operations system for inventory, sales and expense management, transitioning a small business from paper records to digital workflows.
- Mapped user flows, created wireframes and high-fidelity UI, developed interactive prototypes, and translated design specifications into a working product using AI-assisted development tools.
- Conducted usability testing and iterated on user needs, adding SKU search, manual inventory entry and sales editing. The system is actively used for day-to-day business operations.
- Led UX and interface design for the company landing-page website, with a focus on SEO.

SELECTED PRODUCT DESIGN PROJECTS

Guidely | Mobile Campus Companion App | 2024 - 2025

Final-year project | *Team of five*

- Led UI/UX design within a five-person team for a mobile app improving access to campus events and resources at Nile University.
- Designed guest and student access modes, interest-based event recommendations, error and success states, and a virtual tour feature.
- Presented and defended the final-year project, explaining design decisions and making the case for the proposed solution.
- Conducted usability testing across 17 test cases, with all cases passing.

Thermal | AI Music Discovery Concept | 2025 - Present

- Designed UI/UX for an independent music discovery web app concept using a temperature-based interaction model to express user mood and energy.

EDUCATION

BSc Software Engineering | Nile University of Nigeria | Oct 2025

First Class Honours | CGPA: 4.75/5.0 | Top 10 Graduating Student | Dean's List
Relevant coursework: Human-Computer Interaction, Artificial Intelligence
